Horizon Europe Funding Opportunities – 2021-2022

**Cluster 5 – Climate, Energy and Mobility**

**ISERD** is the interface between the Israeli government and the EU, for all the activities of the Framework Programme. Our goal is to promote participation of Israeli entities in European research and innovation (R&I) activity and to increase Israel’s scientific and industrial collaboration with the European R&I ecosystem.

ISERD holds events, information days, and monthly Orientation Presentations, providing more information about funding opportunities.

**Horizon Europe (HEU)**

**HEU** is a 95.5-billion-euro funding programme for R&I, that covers all major scientific and technological disciplines, and encourages collaborative projects (consortia) for a joint goal.

- **Consortium** –
  - At least 3 partners from 3 different countries participating in the programme
  - Out of the 3, at least one partner must be from an EU country
  - A partner can be any legal entity – university, company, agency, organisation, etc...

- **Funding Tools** –
