

Horizon Europe Funding Opportunities - 2024

The EIC Transition

ISERD is the interface between the Israeli government and the EU, for all the activities of the Framework Programme. Our goal is to promote the participation of Israeli entities in European research and innovation (R&I) activity and to increase Israel's scientific and industrial collaboration with the European R&I ecosystem. ISERD holds <u>events</u>, information days, and invites you to follow our <u>newsletter</u>, and <u>website</u> providing more information about funding opportunities

Horizon Europe (HEU)

<u>HEU</u> is a 95.5-billion-euro funding programme for R&I, that covers all major scientific and technological disciplines, and encourages collaborative projects (consortia) for a joint goal.

Consortium –

Authority

- At least 3 partners from 3 different countries participating in the programme
- At least 1 partner must be from a member state (EU country)
- ✓ A partner can be any legal entity university, company, agency, end-user, government entity etc...

•	Fur			
		Action		Fundin

Action	Funding*	Main Characteristics		
RIA – Research & Innovation Action	100% + 25%	Basic and applied research , technology development and integration, testing and validation - small-scale prototype in a laboratory or simulated environment. Usually low TRL		
IA – Innovation Action	70% + 25%	Prototyping , testing, demonstrating, piloting, large-scale product validation and market replication. Usually high TRL		
CSA – Coordination & Support Action	100% + 25%	Networking , coordination or support services , policy dialogues and mutual learning exercises and studies		

* Non-profit: always 100% + 25% overhead

<u>TRL</u> - Technology Readiness Level - a scale to measure the maturity level of a technology <u>Lump-sum</u> - Funding procedure aimed to simplify budget allocation by removing the need to report actual costs

The focus of the call -

- **<u>EIC Transition</u>** The overall objective is to fund **innovation activities that go beyond the experimental proof of principle in the laboratory.** It supports both the **maturation and validation of your novel technology** from the lab to the **relevant application environments** by making use of prototyping, formulation, models, user testing or other validation tests as well as explorations and development of a sustainable **business case and business model towards commercialisation** into high potential markets. This funding has no predefined thematic priorities and is open to proposals in any field of science, technology or application
- **EIC Transition proposals must build on results already achieved within an eligible project** that are at TRL 3/4 EIC Transition is restricted to proposals based on results generated by the following eligible projects:
 - **EIC Pathfinder projects** (including projects funded under the Horizon 2020 EIC pilot Pathfinder, FET-Open, FET-Proactive, CSA and CSA Lump sum FET Innovation Launchpad, and FET Flagships calls).
 - **European Research Council Proof of Concept (ERC PoC)** projects funded Horizon 2020 or Horizon Europe.
 - **Research and Innovation Actions (RIA)** directly funded under Horizon 2020 Societal challenges and Leadership in Industrial Technologies and under Horizon Europe pillar II, with an eligible TRL.
 - **European Defence Fund (EDF)**, including the Preparatory Action on Defence Research, research projects, but only for proposals which are focused on civil applications (including dual use)
