- SwafS-14-2018-2019-2020: Supporting the development of territorial Responsible Research and Innovation: Strengthen research capacity and catalyse social sciences researchers to generate and apply new knowledge about effective governance arrangements for infectious disease preparedness

Strategic orientation 4. Exploring and supporting citizen science

- SwafS-27-2020: Hands-on citizen science and frugal innovation - Support the exchange of experiences of regional relevance and exchange of now-how from EU countries through a multi country initiative targeting priority Public Health concerns.
- SwafS-28-2020: The ethics of organoids
- SwafS-29-2020: The ethics of technologies with high socio-economic impact
- SwafS-30-2020: Responsible Open Science: an ethics and integrity perspective

Strategic orientation 5. Building the knowledge base for SwafS SwafS-19-2018-2019-2020:

- Taking stock and re-examining the role of science communication
- SwafS-31-2020: Bottom-up approach to build SwafS knowledge base

1) PROJECT INFORMATION

Field of expertise related to the topic: To develop a Master on Disaster management on a E-Learning platform.

Potential contribution to the project: Implementation (including M&E); research; trainings; human resources.

Role in the project:

Researcher **Training**

Already experience as a Coordinator: No
As a Partner: Yes

.....

TARGET COORDINATOR / PARTNER SOUGHT

Higher education / university
Research institution

We are looking for following Expertise / Competencies: We are looking for one or more university or research institution(s) with experience in EU-funded project administration and coordination

Short profile of the Organization: The Albanian University (AU) is a private and independent Higher Education Institution. It was licensed in April 2004 from the Ministry of Education and Science, as well as ratified by the Council of Ministers of the Republic of Albania. At present, it is one of the leading higher education institutions in Albania. AU fully abides with the requirements and criteria of the Bologna Charter and proudly engages in high quality teachings in all levels of higher academia education. The academic infrastructure is expanded in the cities of Tirana, Durres, Berat and Fier. It counts a total number of 5,400 Students and 400 lecturers. Since its first days, AU thrives in the development of knowledge and academic excellence of the student body throughout its faculties in the Medical Sciences, Architecture & Engineering as well as a considerable Social Sciences school. In particular, Medical Sciences and its school of Dentistry represent the flagship of the Albanian University and it is fully developed to provide comprehensive study programs in BA, MSc. and Doctorate levels

The internationalization of AU has seen its beginnings through several annual academic conferences, publications and docent exchanges. Even though this is a solid process even at present, AU has in the past few years taken the initiative to develop a proactive program of international exchange programs with sister academic institutions through the Erasmus program as well as being part of Horizon 2020 projects as a minor partner. Several EU members states are at present partners in mobility initiatives, but most importantly Italy represents an historical, linguistic and cultural natural partner for the Albanian academia.

Date: 17 September 2019

The offer is valid until: March 2020

I agree with publication of my contact data on "Science with and for Society" network website

YES

NO
